

Grant Idea Summary Rubric			
Points Possible	Points Earned	Comments	Description
20	20		200-500 word summary of what you will be doing with the grant money is clear, fully developed and important
10	10		Grammar, spelling, mechanics correct
10	10		Rough estimate of money needed
10	0		Rough estimate of time to complete project
50	40		

Dara, The summary is OK - but it needs to start being a LOT more specific. That is what you will fill in for the application summary. You have some of the information you need - but you need to come up with a very specific plan of how this money will help the students in terms of measurable goals, objectives, etc. What you want to do is to come up with a catchy name for your project to describe it and a specific purpose for this project. You want to paint a picture that they will be able to see. Also, very nice PPT presentation!

Grant Application Summary			
Points Possible	Points Earned	Comments	Description
10			Your objective for the grant funding
20			Brief description of project to be funded - can be idea summary provided earlier with tweaks as needed
15			Timeline for implementation; add discussion if benefits are to be ongoing after initial project ends
5			Number of students "affected"
