E-Learning Project 2: Module Description

Course Description:

In this course, school website administrators from Raymondville ISD will learn to create a school website by using Weebly - a website builder. This training module will be available online; it will be created with Moodle which is an open source courseware management system platform. Moodle stands for Modular Object-Oriented Dynamic Learning Environment (Moodle.org)

The module will contain an introduction and five different lessons with overviews, assignments, discussion activities, online quizzes, and multimedia presentations such as videos. Every lesson will cover a specific sub goal to achieve the objective.

After completion of this training module, teachers will be able to update and maintain their school website to communicate, promote learning and publish school activities.

Instructional Goal:

Using Weebly, Raymondville ISD website administrators will be able to create a school web site to enhance communication and collaboration among faculty, students and parents.

Course objectives:

Sub Goal 1: School Website Administrators will register for a Weebly account. After completing this lesson, the learners will be able to...

- Objective 1.1: navigate to the Weebly website at www.weebly.com
- Objective 1.2: register for a Weebly account
- Objective 1.3: enter a title for the website
- Objective 1.4: choose a website address using the following naming convention: nameofschool.weebly.com

Sub Goal 2: School website administrators will design the school website. After completing this lesson, the learners will be able to...

- Objective 2.1: select a theme template for their school website
- Objective 2.2: design and customize their theme by choosing a website color
- Objective 2.3: customize the font, font size and font color of the website
- Objective 2.4: add pages to the website

Sub Goal 3: School website administrators will add multimedia tools and other features to their website. After this lesson, the learners will be able to...

- Objective 3.1: use the drag-and-drop tools in Weebly
- Objective 3.2: add a title and information to their website
- Objective 3.3: upload a picture to the website
- Objective 3.4: embed a YouTube video to the website

- Objectives 3.5: Website administrators will learn how to add links and contact forms to the website

Sub Goal 4: School website administrators will be able to publish their school website online. After this lesson, learners will be able to...

- Objective 3.1: publish their website
- Objective 3.2: test all links and features added to it
- Objective 3.3: log out successfully from weebly.com and close the webpage window

Sub Goal 5: School website administrators will be able to update the school website. After this lesson, learners will be able to...

- Objective 3.1: independently access the Weebly website by typing the URL
- Objective 3.2: log in to Weebly
- Objective 3.3: update website by changing information
- Objective 3.4: publish the website and check if changes updates were published
- Objective 3.5: submit website URL for evaluation

Required Text(s):

All the required material, reading, and texts will be included in the E-Learning training course. PDF files of reading materials will be available to print out hard copies. These reading materials/hard copies will be obtained from Weebly website:

<http://www.weebly.com/ed-features.php>

Assignments:

Task work for this course include: term quizzes, discussion questions, and final project assignments for each lesson. Each quiz is going to consist of multiple choice questions, matching and short answers. Discussion questions are going to be related on the lesson topic. A project assignment over each lesson is the final part for the course. Total points possible to obtain is 300

Assignment Name	Points Possible
Lesson 1: register for a Weebly account	
• Discussion question	10
• Assignment	20
• Online Quiz	10
Lesson 2: design school website	
• Discussion question	10
• Assignment	20
• Online Quiz	10
Lesson 3: add multimedia tools	
• Discussion question	10
• Assignment	20
• Online Quiz	10
Lesson 4: publish new school website	
• Discussion question	10
• Assignment	20
• Online Quiz	10
Lesson 5: update school website	
• Discussion question	10
• Assignment	20
• Online Quiz	10
Final Product: submit website URL	100
Total Points Possible	300

Grading

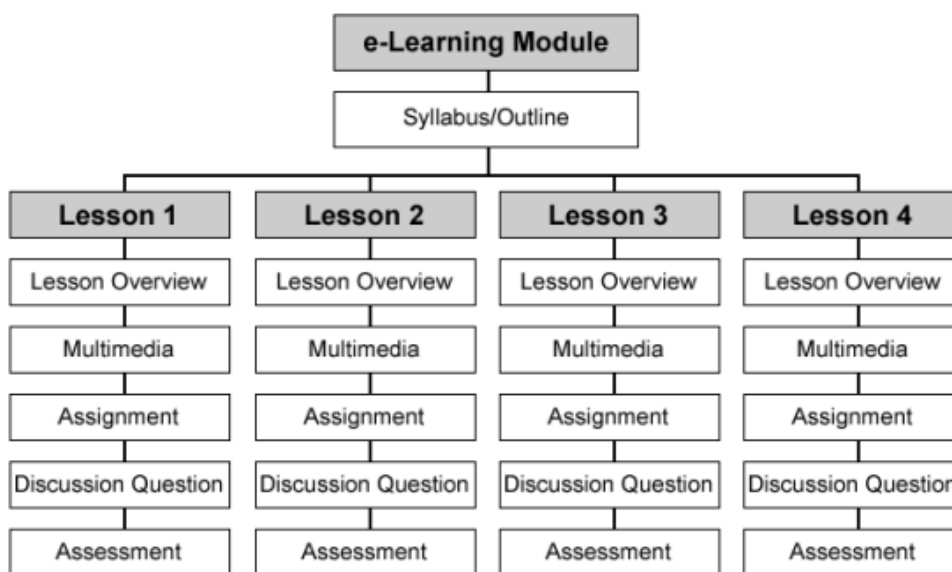

Graded work for this course include: a terms quizzes, discussion questions, and final project assignments for each lesson. Quizzes address the main topics over each lesson. Quizzes are available online and can be taken twice to increase total points. The discussion board questions are to enhance the lesson by providing a viewpoint over the topic. The project assignments are the final part of each

lesson and have greater weighted points. Grades for this course will be evaluated base the rubric listed below. Total points: 300

Grade Work Type	Points Possible
Quizzes	40
Discussions	40
Assignments	100
Final Product	120
Total Possible Points	300

Point Distribution
A = 201-300
B = 151-200
C = 101 - 150
F = Below 100 points

Topical Outline:

[*Chart Credit](#)

Lesson	Topic	Content
Introduction	Introduction to Weebly	<ol style="list-style-type: none"> 1. Overview of Weebly 2. Capabilities of Weebly 3. Special Features 4. Educational Purposes 5. 21st Century Skills
Lesson 1	register for a Weebly account	<ol style="list-style-type: none"> 1. navigate to the Weebly website at www.weebly.com 2. register for a Weebly account 3. enter a title for the website 4. choose a website address using the following naming convention: nameofschool.weebly.com
Lesson 2	design school website	<ol style="list-style-type: none"> 1. select a theme template for their school website 2. design and customize their theme by choosing a website color 3. customize the font, font size and font color of the website 4. add pages to the website
		<ol style="list-style-type: none"> 1. use the drag-and-drop tools in Weebly 2. add a title and information to their website

Lesson 3	add multimedia tools	<ul style="list-style-type: none">3. upload a picture to the website4. embed a YouTube video to the website5. Website administrators will learn how to add links and contact forms to the website
